

ASSIGNMENT 2.2 – BUILDING A WEB PAGE EXERCISE, PART 2

Chapter 1: HTML

Hello, I am Candice Garcia, born and raised in Southern California. I love being in nature and going on adventures. Hanging out with my dog brings much humor into my life.

I have an associate degree in Natural Sciences and a CNA certification. I have the opportunity to go through this university program via my employer, which I am grateful for. It is not something I would probably have ever done, and I am really enjoying what I am learning.

I love going on nature walks and on adventures to see interesting places. Catching up on YouTube is also a big hobby of mine since many of my interests can be viewed there, such as dancing, interior design, and yoga.

My future goals include furthering my yoga training to prenatal yoga. I am excited to learn these skills and hope to eventually transition the computer skills I learn here to good use. I noticed our last course is a Capstone project, I am hoping to make a yoga website, although I am not sure we can choose any thing yet. I have enjoyed all the big projects in this course so I am super curious what it will entail.
